

PRESS RELEASE

**OCTOBER 10, 2018
PORT LAVACA, TEXAS**

LAVACA BAY FOUNDATION

Lavaca Bay Foundation is pleased to announce that it has been awarded a \$2,500 grant from the Environmental Fund of Texas, whose priority is preserving and protecting water sources and providing environmental education and engagement. The project, "Human Activities and the Impact on Lavaca Bay" will be conducted in partnership with the Texas Sea Grant Agent and Our Lady of the Gulf Catholic School. Students in science classes will monitor water quality and species to assess human impact at Bayfront Park, and educational materials will be developed and disseminated to the community. Our objectives include greater public awareness of the conditions that impact the bay ecosystem and greater involvement by both students and adults in supporting protection of the Lavaca Bay ecosystem.

The next meeting of the Lavaca Bay Foundation will be October 25, 6:00pm at Nautical Landings Community Room in Port Lavaca.

Lavaca Bay Foundation is a 501(c)3 tax exempt organization dedicated to the preservation of the Lavaca Bay system for all users.
